

### **1. IDENTIFICATION**

| Product Name        | Calcium Citrate  |
|---------------------|--|
| Other Names         | Calcium citrate, anhydrous [CAS#813-94-5]; Calcium citrate, tetrahydrate   |
| Uses                | Food additive; Preservative; Flavouring; Calcium fortification; Dietary supplements; Acidity regulator; Firming agent. |
| Chemical Family     | No Data Available  |
| Chemical Formula    | Ca3(C6H507)2.4H2O  |
| Chemical Name       | 1,2,3-Propanetricarboxylic acid, 2-hydroxy-, calcium salt (2:3), tetrahydrate  |
| Product Description | No Data Available  |

### Contact Details of the Supplier of this Safety Data Sheet

| Organisation            | Location   | Telephone       |
|-------------------------|--|-----------------|

### **3. COMPOSITION/INFORMATION ON INGREDIENTS**

#### Ingredients

| Chemical Entity               | Formula           | CAS Number | Proportion |
|-------------------------------|-------------------|------------|------------|
| Calcium citrate, tetrahydrate | Ca3(C6H5O7)2.4H2O | 5785-44-4  | <=100 %    |

### **4. FIRST AID MEASURES**

| Description of necessary measure             | s according to routes of exposure   |
|--|---|
| Swallowed                                    | IF SWALLOWED: Rinse mouth, then drink plenty of water. Do not induce vomiting unless directed to do so by medical personnel. Get medical advice/attention if you feel unwell. Never give anything by mouth to an unconscious person.  |
| Eye  | IF IN EYES: Immediately flush eyes with running water for several minutes, holding eyelids open and occasionally lifting the upper and lower lids. Remove contact lenses if present and easy to do. Continue rinsing for at least 15 minutes. If eye irritation persists, get medical advice/attention. |
| Skin   | IF ON SKIN: Wash with plenty of soap and water. Take off contaminated clothing and wash it before reuse. If skin irritation occurs, get medical advice/attention.   |
| Inhaled                                      | IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. If respiratory symptoms persist, get medical advice/attention.   |
| Advice to Doctor                             | Treat symptomatically.<br>*Most important symptoms and effects, both acute and delayed: None known.   |
| Medical Conditions Aggravated by<br>Exposure | No information available.   |

### **5. FIRE FIGHTING MEASURES**

#### **General Measures**

If safe to do so, move undamaged containers from fire area. Cool containers with water spray until well after fire is out. Dike fire-control water for later disposal.

| Flammability Conditions             | Combustible solid; may burn but does not ignite readily.  |
|-------------------------------------|---|
| Extinguishing Media                 | Use dry chemical, Carbon dioxide (CO2), foam or water spray for extinction. Do not scatter spilled material with high-<br>pressure water streams.               |
| Fire and Explosion Hazard           | Avoid generating dust; fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard. |
| Hazardous Products of<br>Combustion | Fire may produce irritating and/or toxic gases, including Carbon oxides, Calcium oxides.  |
| Special Fire Fighting Instructions  | Contain runoff from fire control or dilution water - Runoff may cause pollution.  |
| Personal Protective Equipment       | Wear positive pressure self-contained breathing apparatus (SCBA). Structural firefighters' protective clothing will only provide limited protection.            |
| Flash Point                         | No Data Available   |
| Lower Explosion Limit               | No Data Available   |
| Upper Explosion Limit               | No Data Available   |
| Auto Ignition Temperature           | No Data Available   |
| Hazchem Code                        | No Data Available   |

### **6. ACCIDENTAL RELEASE MEASURES**

| General Response Procedure              | Ensure adequate ventilation. ELIMINATE all ignition sources (if dust clouds can occur). Do not touch or walk through spilled material. Avoid generating dust. Avoid breathing dusts or mists and contact with eyes, skin and clothing. |
|---|--|
| Clean Up Procedures                     | Carefully shovel or sweep up spilled material and place in suitable container for disposal (see SECTION 13).   |
| Containment                             | Stop leak if you can do it without risk. Prevent dust cloud. Prevent entry into waterways, sewers, basements or confined areas.  |
| Decontamination                         | After cleaning, flush away traces with water.  |
| Environmental Precautionary<br>Measures | Prevent entry into drains and waterways.   |
| Evacuation Criteria                     | Spill or leak area should be isolated immediately. Keep unauthorised personnel away.   |
| Personal Precautionary Measures         | Use personal protective equipment as required (see SECTION 8).   |

### 7. HANDLING AND STORAGE

| Handling  | Safety showers and eyewash facilities should be provided within the immediate work area for emergency use. Ensure adequate ventilation. Handle in accordance with good industrial hygiene and safety practice. Avoid generating dust. Avoid breathing dusts or mists and contact with eyes, skin and clothing. Use personal protective equipment as required (see SECTION 8). WARNING: May form combustible dust concentrations in air! Keep away from heat and sources of ignition - No smoking. Take precautionary measures against static discharges. |
|-----------|--|
| Storage   | Store in a cool, dry and well-ventilated place, out of direct sunlight. Keep container tightly closed. Protect from moisture/humidity. Keep away from heat and sources of ignition - No smoking. Keep away from incompatible materials (see SECTION 10).   |
| Container | Keep in the original container.  |

### 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

### General

No specific exposure standards are available for this product. For dusts from solid substances without specific occupational exposure standards:

- Safe Work Australia Exposure Standard (Nuisance dusts): 8 hr TWA = 10 mg/m3 (measured as inhalable dust).
- New Zealand WES (Particulates not otherwise classified): TWA = 10 mg/m3 (total); TWA = 3 mg/m3 (respirable).

| Exposure Limits               | No Data Available  |
|-------------------------------|--|
| <b>Biological Limits</b>      | No information available.  |
| Engineering Measures          | A system of local and/or general exhaust is recommended to keep employee exposures as low as possible. Local exhaust ventilation is generally preferred because it can control the emissions of the contaminant at its source, preventing dispersion of it into the general work area.   |
| Personal Protection Equipment | <ul> <li>Respiratory protection: In case of inadequate ventilation, wear respiratory protection. Recommended: Dust mask/particulate respirator (refer to AS/NZS 1715 &amp; 1716).</li> <li>Eye/face protection: Wear appropriate eye protection to avoid eye contact. Recommended: Safety glasses or goggles.</li> <li>Hand protection: Handle with gloves. Recommended: Impervious gloves, e.g. rubber gloves.</li> <li>Skin/body protection: Wear appropriate personal protective clothing to avoid skin contact. Recommended: Overalls; Protective shoes or boots.</li> </ul> |
| Special Hazards Precaustions  | No information available.  |
| Work Hygienic Practices       | Do not eat, drink or smoke when using this product. Wash hands thoroughly after handling. Take off contaminated<br>clothing and wash it before reuse. Routine housekeeping should be instituted to ensure that dusts do not accumulate on<br>surfaces.   |

### 9. PHYSICAL AND CHEMICAL PROPERTIES

| Physical State                   | Solid                     |
|----------------------------------|---------------------------|
| Appearance                       | Powder or granular        |
| Odour                            | No information available. |
| Colour                           | White                     |
| рН                               | 5 - 6 (5% soln/water)     |
| Vapour Pressure                  | No Data Available         |
| <b>Relative Vapour Density</b>   | No Data Available         |
| Boiling Point                    | No Data Available         |
| Melting Point                    | No Data Available         |
| Freezing Point                   | No Data Available         |
| Solubility                       | Soluble in water          |
| Specific Gravity                 | 2.32 (Water = 1)          |
| Flash Point                      | No Data Available         |
| Auto Ignition Temp               | No Data Available         |
| Evaporation Rate                 | No Data Available         |
| Bulk Density                     | No Data Available         |
| Corrosion Rate                   | No Data Available         |
| <b>Decomposition Temperature</b> | 100 - 120 °C              |
| Density                          | No Data Available         |
| Specific Heat                    | No Data Available         |
| Molecular Weight                 | 570.49 g/mol              |
| Net Propellant Weight            | No Data Available         |
| Octanol Water Coefficient        | No Data Available         |
| Particle Size                    | No Data Available         |
| Partition Coefficient            | No Data Available         |
| Saturated Vapour Concentration   | No Data Available         |
| Vapour Temperature               | No Data Available         |
| Viscosity                        | No Data Available         |
| Volatile Percent                 | No Data Available         |
| VOC Volume                       | No Data Available         |
|                                  |                           |

| Additional Characteristics   | No information available.   |
|--|---|
| Potential for Dust Explosion   | Avoid generating dust; fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard. |
| Fast or Intensely Burning<br>Characteristics                         | No information available.   |
| Flame Propagation or Burning<br>Rate of Solid Materials              | No information available.   |
| Non-Flammables That Could<br>Contribute Unusual Hazards to a<br>Fire | No information available.   |
| Properties That May Initiate or<br>Contribute to Fire Intensity      | Combustible solid; may burn but does not ignite readily.  |
| Reactions That Release Gases or<br>Vapours                           | Fire/decomposition may produce irritating and/or toxic gases, including Carbon oxides, Calcium oxides.  |
| Release of Invisible Flammable<br>Vapours and Gases                  | No information available.   |

### **10. STABILITY AND REACTIVITY**

| General Information                 | Hazardous reactions are not expected under normal conditions of storage and use.                       |
|-------------------------------------|--|
| Chemical Stability                  | Stable under normal conditions.  |
| Conditions to Avoid                 | Avoid generating dust. Keep away from heat and sources of ignition. Protect from moisture.             |
| Materials to Avoid                  | Incompatible/reactive with strong oxidising agents, strong acids, strong bases.                        |
| Hazardous Decomposition<br>Products | Fire/decomposition may produce irritating and/or toxic gases, including Carbon oxides, Calcium oxides. |
| Hazardous Polymerisation            | Will not occur.  |

### **11. TOXICOLOGICAL INFORMATION**

| General Information | Information on toxicological effects:<br>- Acute toxicity: No information available.<br>- Skin corrosion/irritation: No information available.<br>- Serious eye damage/irritation: No information available.<br>- Respiratory/skin sensitisation: No information available.<br>- Germ cell mutagenicity: No information available.<br>- Carcinogenicity: No information available.<br>- Reproductive toxicity: No information available.<br>- STOT (single exposure): No information available.<br>- STOT (repeated exposure): No information available.<br>- Aspiration toxicity: No information available. |
|---------------------|--|
| Carcinogen Category | Information on possible routes of exposure:<br>- Ingestion: May cause gastrointestinal discomfort if consumed in large amounts.<br>- Eye contact: Dust contact with the eyes can lead to mechanical irritation.<br>- Skin contact: Contact with dust can cause mechanical irritation or drying of the skin.<br>- Inhalation: May cause irritation of respiratory tract.<br>Chronic effects: No information available.<br>None  |

## **12. ECOLOGICAL INFORMATION**

| Ecotoxicity                      | The product is not considered harmful to aquatic organisms or to cause long-term adverse effects in the environment. |
|----------------------------------|--|
| Persistence/Degradability        | No information available.  |
| Mobility                         | No information available.  |
| Environmental Fate               | Prevent entry into drains and waterways.   |
| <b>Bioaccumulation Potential</b> | No information available.  |
| Environmental Impact             | No Data Available  |

### **13. DISPOSAL CONSIDERATIONS**

| General Information               | Dispose of contents/container in accordance with local/regional/national regulations.                     |
|-----------------------------------|---|
| Special Precautions for Land Fill | Contaminated packaging: Empty containers should be taken for local recycling, recovery or waste disposal. |
