## ABOUT REDOX

Established in 1965 in Sydney, Redox is a leading ingredients distributor active in the Australian, New Zealand, Malaysian and the United States markets. Our business specialises in providing customers with the widest possible range of quality chemicals, ingredients and raw materials sourced from the world's best manufacturers.

Redox add value through its expert sourcing ability, efficient freight and warehousing network, stringent quality systems, close customer service, leveraged buying power and market knowledge. We look for long term partnerships, where shared values and common goals align for mutual benefit. Our relationships are open, innovative and based on teamwork. Let Redox become your supply chain partner and start to enjoy the benefits tens of thousands of customers enjoy around the globe.

## QUALITY

Maintaining quality of output is absolutely vital to every one of Redox's customers. To achieve the required standards, they must be assured that the raw materials they purchase consistently maintain stipulated standards. Redox is an ISO9001 certified company and relevant sites have HACCP and/or FSSC22000 Certification and commit to continual improvement. In addition to regular internal inspections and constant updates to comply with regulatory issues, SAI Global limited conducts bi-annual audits. We are committed to the Chemistry Australia Responsible Care program and the Code of Conduct to protect against the illicit use of chemicals and comply with all relevant environmental programs and occupational health and safety regulations. Redox are also Members of the Roundtable on Sustainable Palm Oil (RSPO), Sedex and subscribers to the EcoVadis Supplier Sustainability Ratings platform.

Our quality assurance program ensures all customers receive relevant and timely information on the storage and handling of chemicals, as well as information to protect the health and safety of employees and the environment.

The Redox labelling system for its packaged products is unique – defining product types and hazard codes, Redox batch numbers and barcodes. The system enables the incoming and outgoing deliveries to be quickly and easily matched to their analysis results. Therefore, at any time, Redox customers can request a certificate of analysis/ conformity, either by fax or accompanying their delivery. This certificate contains all of the information required to ensure full traceability and accurate matching with the analysis results of the incoming delivery.

## WE UNDERSTAND YOUR NEEDS

At Redox, our dedicated Agricultural team is well positioned to meet the demands of this vital industry with experienced Animal Nutritionists on staff. Technical support is available for a variety of animals including poultry, swine, dairy and beef cattle, aquaculture and companion animals. We help customers choose optimal raw materials and feed additives for a specific formulation aimed at improving animal health and performance.

We provide guidance through industries recent legislative developments and most up-to-date news on technical, regulatory and safety issues. Furthermore, Redox guarantees products are sourced from safe and reliable partners. Our holistic and customised approach, with onsite visits, ensure you receive the best results.

We have strong relationships with universities to assess and develop new products and ideas, and to review raw material functions and quality control methods. Our strong presence within the industry, participating in academic seminars, conferences and published papers, allows us to offer leading expertise on the latest innovations and market trends while providing evidence based advice.

## EXTENSIVE RANGE OF QUALITY PRODUCTS

Through the strengthening of established relationships Redox continues to add value to the Animal Nutrition Sector. Our portfolio of expertise includes feed improvers and preservatives, trace elements, minerals, vitamins, salts, amino acids, fibres, proteins, fats, oils, antioxidants, sweeteners and sugars, stabilisers and gums, colours and veterinary health products.

In addition to offering an extensive range of raw materials for formulators and manufacturers in animal health, we are continually sourcing new materials to improve quality and lower costs.

## RELIABLE DELIVERY AND LOCAL REPRESENTATION

We know that the Animal Health and Nutrition Industry demands reliability of supply and personal service, that's why we have 15 regional sales offices and over 100 storage locations. It doesn't matter if you are in Griffith or Invercargill, West Malaysia or Fresno you can be sure that friendly help is not far away.

**OUR WIDE RANGE OF PRODUCTS PLAY A VITAL ROLE IN ANIMAL HEALTH AND WELL BEING IN PET FOOD (BOTH WET AND DRY) AND VETERINARY HEALTH MARKETS.**

# MARKETS

**Redox supplies more than 1,000 different chemicals and ingredients to clients throughout Australia, Malaysia, New Zealand and the United States.**

Our range is sourced from quality raw material manufacturers throughout the world and supplied to clients in 140 unique industries. We know and understand the complexities of your market and act to ensure you receive the best products to allow your business to thrive.

Redox's range includes bulk commodity chemicals where our efficient logistics network and wide sourcing ability makes the difference to specialty ingredients where innovation and knowledge is key. Clients have the choice of solid, liquid and gaseous forms, as well as a broad range of secure packaging and tailored transportation options designed to maximize efficiency, product integrity and safety. From small sachets to bags, bulk bags, bulk powder to carboys, drums, IBC's/Totes to liquid bulk tankers, Redox offer the flexibility and convenience that your business demands.

## FOOD & BEVERAGE

Constant interaction with nutritionists and regulatory bodies ensures that this division stays at the forefront of the industry. We provide an extensive range of:

- Sweeteners and stabilizers
- Minerals and phosphates
- Basic and functional ingredients
- Acidulants and preservatives

## HOUSEHOLD & PERSONAL CARE

Whether you are formulating a shampoo or sunscreen Redox have a wide variety of innovative commodity and specialty ingredients for the Personal Care specialist.

Our detergent customers use our quality materials to manufacture products for Industrial, Institutional and Consumer markets.

## NUTRACEUTICAL & PHARMACEUTICAL

Redox constantly monitors changes in regulatory standards to effectively deliver competitively priced, high quality, innovative products to the Nutraceutical and Pharmaceutical sectors.

## ANIMAL HEALTH & NUTRITION

Our wide range of products play a vital role in the stockfeed, aquaculture, pet food and veterinary health markets. We provide;

- Amino acids and proteins
- Feed improvers, enzymes and preservatives
- Vitamins, trace elements and minerals.

## WATER CARE

For the safest and cleanest water, we supply quality water treatment chemicals such as:

- Flocculants
- pH adjusters
- Filter media
- Scale inhibitors
- Fluoridation additives
- Organophosphates and biocides
- Ion Exchange Resins.

## CROP PROTECTION & PRODUCTION

Redox continues to add value to the supply chain with key relationships with the Crop Nutrition, Horticulture and Protection sectors.

- Our product range includes:
- Improvers for broad acre and drip delivery
- Growth mediums for Horticulture and Potting soils
- Herbicides, fungicides and other foliar applications.

## CHEMICAL MANUFACTURE

Redox offers a superior world-wide sourcing network and expert logistics to deliver the low-cost raw materials to help chemical manufacturing grow and prosper.

**WE KNOW AND UNDERSTAND WHAT'S IMPORTANT TO YOU. TALK TO ONE OF OUR INDUSTRY FOCUSED EXPERTS TODAY.**

## **MINING & EXPLOSIVES**

Redox supplies a diverse and extensive range of products into all areas of the Mining industry. From flotation agents to cyanide destruction, Redox have reagents and products for your application.

## **METALS**

Redox are active in the Steel, Galvanizing, Refractory and Electroplating Industries.

## **BUILDING & CONSTRUCTION**

Redox products are utilised in the manufacture and treatment of:

- Glass
- Bricks
- Concrete
- Insulation
- Timber
- Fiberglass and more.

## **PLASTIC, RUBBER & FOAM**

Our product range includes:

- Commodity Polymers – PE (LD, LL, HD, MD, roto-powder), PP, PS (GPPS, HIPS, EPS), PVC, PET
- Engineering Plastics – ABS, PA, POM, PC, PMMA, PBT, TPU, and compounds
- Specialty Polymers – Silicone, Masterbatches, PU-Systems
- Isocyanates and Polyols
- Monomers, Oligomers and rubber raw materials [drop the "UV"]
- Additives (UV stabiliser, Antioxidants, Pigments, Processing Aids, Flame Retardants)
- Solvents & Plasticisers

## **TANNING & TEXTILES**

Our experienced, industry trained personnel make Redox a market leader in sourcing and distribution of commodity chemicals to the tanneries and textile plants of the region.

## **LUBRICANTS & AUTOMOTIVE**

Redox provides key products to service the lubricant and automotive industry with a leading position in the Diesel Exhaust Fluid market.

## **SURFACE COATINGS**

An integral supplier of raw materials used in the Surface Coating industry, including:

- Fillers
- Pigments
- Solvents
- Oxides
- Amines
- Acids
- Glycols and resins.

# CORPORATE SOCIAL RESPONSIBILITY

## MARKET PLACE

Redox has implemented procedures and policies which aim to minimise ethical sourcing risks across its business operations and supply chains.

Redox has memberships with various organisations which aim to create more socially and environmentally sustainable supply chains, including Sedex, Roundtable on Sustainable Palm Oil (RSPO), Chemistry Australia and the National Association of Chemical Distributors (in the United States). This assists in seeking to ensure that Redox interacts within ethical supply chains and enables Redox to demonstrate leadership as a responsible business within the industry.

## ENVIRONMENTAL, SOCIAL, & GOVERNANCE (ESG)

In 2017, Redox commenced a long-term project to progressively fit its Australian sites with solar generation systems. Redox has since completed projects to fit out six of its seven Australian sites with photovoltaic solar generation systems, with the last one being completed in May 2023. Redox's total generation capacity is now 600kW across those six sites.

## WORKPLACE

Redox is committed to providing equal employment opportunities, free from discrimination, with employment decisions based on job specifications, individual qualifications and business needs without regard to an employee or prospective employees' attributes. Redox also remains committed to fair employment practices and maintains a no tolerance policy for harassment and discrimination.

Redox has a Code of Conduct Policy, Harassment, Bullying and Discrimination Policy, Diversity Policy and Whistleblower Policy.

## MEMBERSHIPS

**AT REDOX, CORPORATE SOCIAL RESPONSIBILITY (CSR) IS ABOUT RESPONSIBLE BUSINESS LEADERSHIP. IT INFLUENCES HOW BUSINESS IS CONDUCTED, INTERACTIONS WITH STAKEHOLDERS, AND THE VALUE CONTRIBUTED TO SOCIETY.**
