REDOX HAS HAD AN
AMAZING HISTORY
OF GROWTH AND
DEVELOPMENT IN THE
YEARS SINCE IT WAS
FOUNDED IN 1965...

FOOD & BEVERAGE

ABOUT REDOX

Established in 1965 in Sydney, Redox is a leading ingredients distributor active in the Australian, Malaysian, New Zealand and United States markets. Our business specialises in providing customers with the widest possible range of quality chemicals, ingredients and raw materials sourced from the world's best manufacturers.

Redox add value through its expert sourcing ability, efficient freight and warehousing network, stringent quality systems, close customer service, leveraged buying power and market knowledge. We look for long term partnerships, where shared values and common goals align for mutual benefit. Our relationships are open, innovative and based on teamwork. Let Redox become your supply chain partner and start to enjoy the benefits tens of thousands of customers enjoy around the globe.

QUALITY

Maintaining quality of output is absolutely vital to every one of Redox's customers. To achieve the required standards, they must be assured that the raw materials they purchase consistently maintain stipulated standards. Redox is an ISO9001 certified company and relevant sites have HACCP and/or FSSC22000 Certification and commit to continual improvement. In addition to regular internal inspections and constant updates to comply with regulatory issues, SAI Global Limited conducts bi-annual audits. We are committed to the Chemistry Australia Responsible Care program and the Code of Conduct to protect against the illicit use of chemicals and comply with all relevant environmental programs and occupational health and safety regulations. Redox are also Members of the Roundtable on Sustainable Palm Oil (RSPO), Sedex and subscribers to the EcoVadis Supplier Sustainability Ratings platform.

Our quality assurance program ensures all customers receive relevant and timely information on the storage and handling of chemicals, as well as information to protect the health and safety of employees and the environment.

The Redox labelling system for its packaged products is unique – defining product types and hazard codes, Redox batch numbers and barcodes. The system enables the

incoming and outgoing deliveries to be quickly and easily matched to their analysis results. Therefore, at any time, Redox customers can request a certificate of analysis/conformity, either by fax or accompanying their delivery. This certificate contains all of the information required to ensure full traceability and accurate matching with the analysis results of the incoming delivery.

WE UNDERSTAND YOUR NEEDS

Constant interaction with nutritionists, specialists and regulatory bodies allow us to be at the forefront of the industry delivering the benefits to you, the customer. Our quality assurance team is now tracking the ever changing and challenging requirements for nutritional and allergen information management.

Many of our warehouses are equipped with dedicated food storage and blending facilities which are HACCP certified to meet the most stringent food safety standards. We welcome customer on site audits.

EXTENSIVE RANGE OF QUALITY PRODUCTS

We pride ourselves on our extensive and ever-expanding range which includes sweeteners, stabilisers, emulsifiers, minerals, antioxidants, phosphates, vitamins, hydrocolloids, basic and functional ingredients, acidulants and preservatives.

RELIABLE DELIVERY AND LOCAL REPRESENTATION

We know that the Food and Beverage industry demands reliability of supply and personal service, that's why we have 11 regional sales offices and over 50 storage locations. It doesn't matter if you are in Sydney or Kuala Lumpur, the Napa Valley or downtown Auckland you can be sure that friendly help is not far away.

REDOX EARNED A
SILVER
MEDAL
FOR ITS CSR PERFORMANCE

MEMBERSHIPS DURING 2018:

CORPORATE SOCIAL RESPONSIBILITY

At Redox, Corporate Social Responsibility (CSR) is about responsible business leadership. It influences how business is conducted, interactions with stakeholders, and the value contributed to society.

MARKET PLACE

Redox understands the importance of sourcing its products from ethical and socially responsible suppliers, ensuring labour rights, health and safety, the environment and business ethics, are not compromised. As such, Redox has memberships with relevant ethical organisations including Sedex, RSPO (Roundtable on Sustainable Palm Oil) and the NACD (National Association of Chemical Distributors). This ensures that we interact within ethical supply chains and enables Redox to demonstrate leadership as a responsible business within the market.

ENVIRONMENT AND COMMUNITY

Since 2017, Redox completed projects to fit an additional three sites with photovoltaic solar generation systems. Bringing total capacity to 500kW across five Australian sites, Redox will continue to install solar power generation systems as a practical environmental initiative that also lowers operating expenses.

The electricity generated will reduce CO2 emissions by 1,280,000kg per annum which is equivalent to:

280

Passenger cars

OR

5,380

Computers

WORKPLACE

Redox is an equal opportunity employer which enjoys the benefit of a diverse team. Employment decisions at Redox are based on job requirements, individual qualifications and business needs without regard to race, colour, nationality, religion, gender, age, sexual-orientation or disability. It is our policy to provide equal employment opportunity to all persons. We are committed to fair employment practices and are proud to be an equal opportunity employer, providing employees with a work environment free of harassment and discrimination.

Redox also offers support programmes for employees including an independent counselling service covering areas such as bereavement, divorce and alcohol abuse.

Our maternity leave processes ensure employees are ready to return to work. We work with our employees to accommodate flexible working where possible.

Redox uses professional benchmarking and diagnostic tools to evaluate performance on a regular basis, and measures its impact on employees. Redox ensures there is open communication between all levels of the business, which is highlighted through regular meetings and a casual workplace culture.

PRODUCT LINES

Redox supplies more than 1,000 different chemicals and ingredients to clients throughout Australia, Malaysia, New Zealand and the United States.

Redox supplies more than 1,000 different chemicals and ingredients to clients throughout Australia, Malaysia, New Zealand and the United States.

Our range is sourced from quality raw material manufacturers throughout the world and supplied to clients in 140 unique industries. We know and understand the complexities of your market and act to ensure you receive the best products to allow your business to thrive.

Redox's range includes bulk commodity chemicals where our efficient logistics network and wide sourcing ability makes the difference to specialty ingredients where innovation and knowledge is key.

Clients have the choice of solid, liquid and gaseous forms, as well as a broad range of secure packaging and tailored transportation options designed to maximize efficiency, product integrity and safety.

From small sachets to bags, bulk bags, bulk powder to carboys, drums, IBC's/ Totes to liquid bulk tankers, Redox offer the flexibility and convenience that your business demands.

TANNING AND TEXTILES

Our experienced, industry trained personnel make Redox a market leader in sourcing and distribution of commodity chemicals to the tanneries and textile plants of the region.
