

1. INTRODUCTION

Redox Pty Ltd (Redox) holds Environment Protection Licence #6700 for the premises located at 144 Gilba Rd, Girraween, where it operates a warehousing, blending and distribution facility for chemical raw materials and food speciality ingredients.

Licensees under the Protection of the Environment Operations Act 1997 (POEO Act) are required to prepare a Pollution Incident Response Management Plan (PIRMP) for each licensed activity, in accordance with the requirements set out in Part 5.7A of the POEO Act and in Chapter 7 Part 3A of the Protection of the Environment Operations (General) Regulation 2009 (POEO(G) Regulation). Clause 98D (2) and (3) of the POEO(G) Regulation requires that the PIRMP must be made publicly available via a publicly accessible website or by providing a copy of the plan, without charge, to any person who makes a written request for a copy.

Redox has developed a PIRMP to meet their legislative requirements. We have also developed this abridged version of the PIRMP to meet the requirements for public availability of the plan.

2. INCIDENT RESPONSE

a. Legislation

Section 153C (a) of the POEO Act requires a PIRMP pollution must include the procedures to be followed by the holder of the relevant environment protection licence, or the occupier of the relevant premises, in notifying a pollution incident to:

- i. the owners or occupiers of premises in the vicinity of the premises to which the environment protection licence relates, and
- ii. the local authority for the area in which the premises to which the environment protection licence is located and any area affected, or potentially affected, by the pollution, and
- iii. any persons or authorities required to be notified.
- iv. Furthermore, Clause 98C (1) of the POEO(G) Regulation requires that the PIRMP must include:
- v. The contact details of each relevant authority,
- vi. Details of the mechanisms for providing early warnings and regular updates to the owners and occupiers of premises in the vicinity of the premise.

b. Notification of Pollution Incidents

If a pollution incident occurs where 'material harm' to the environment is caused or threatened the following notification protocol will be followed:

- i. Call '000' if the incident presents an immediate threat to human health or property
- ii. If the incident does not require an initial combat agency, or once the 000 call has been made, immediately notify the relevant authorities in the order set out below.

Fire and Rescue NSW (if the incident presents an immediate threat to human health or property)	Phone 000
EPA	Phone Environment Line on 131 555
The Ministry of Health via the local Public Health Unit	24hrs - Blacktown Hospital Phone 02 9881 8000
SafeWork NSW (formerly WorkCover)	Phone 13 10 50
Cumberland City Council	Phone 02 8757 9000

c. Communication with Local Community

In the event of a pollution incident occurring which might impact neighbouring premises or the broader local community, letterbox drops and doorknocking of affected community members will be used to provide early warnings and regular updates to the owners and occupiers of premises who may be affected by the incident.

In the event of discharge of a pollutant to Greystanes Creek, the Incident Response Manager will liaise with the local waterway manager, Cumberland City Council, regarding notifications required for any downstream users.
